REACHES A DEAD LEVEL

Movement of Stocks Sluggish and Entirely Inconclusive on Yesterday.

WHEAT IS STILL A FACTOR

Market Awaiting Report of the Government on Situation. Outgo of Gold.

(By Associated Press.)

NEW YORK, August 6.—There is little to record of to-day's short session — the Stock Exchange. Dealing ran down to the level of midsummer duliness and the movement of prices was so sluggish as to be entirely inconclusive as to any sentiment over outlook for values to be pressed. The uncertainty over the extent of damage to the spring wheat was a continuing factor and is expected to be until the publication of the government report on next Wednesday. The raily in the price of British consols in London is a favorable influence on all securities is a favorable influence on all securities markets. The outgo of gold which has been inaugurated is the subject of interbeen inaugurated is the subject of interested discussion, but is of little concrete effect, owing to the plethoric condition of the money market. Foreign bankers refrain from offering bills against future shipments of grain and cotton, as they issually do at this time of year, because there is no chance of employing the proceeds to advantage in the present stagnant money market here. The money rate is relatively high in London and no commercial bills of exchange are offering as a means of remittance of credits. The shipment of gold is therefore the only alternative. Ine gold outgo next week, so far as arranged, promises to be more than offset by the expected receipt at Han Francisco of \$4.00,000 in Japanese and Australian gold, to be transferred to New York by telegraph. With the exception of gains in some of the obscure specialities the price changes were contined to small fractions, mostly gains, and the closting was firm. Total sales of bonds, par value, \$1,16,00. Total sales of stocks were \$8,70 sheres.

COTTON MARKETS.

NEW YORK, Aug. 8.—The cotton market opened easy at u decline of 2 points on August and of \$\frac{2}{2}11\$ points on later positions, this being barely a response to lower Liverpool cables and generally favorable early weather reports. Following the call there was a renewal of shorts covering in fear of further built manipulation and with some support from builish sources the market railed a few points, but showed liregularity rather than firmness, and koward the middle of the morning ruled quiet and rather easier. Late reports from the South indicated heavy rains in some sections of the bell, but the crop situation as a whole was hardly such as to give shorts askely. Business was viry quiet and fluctuations narrow.

Receipts at the ports to-day \$91 bales against 4.62 last week and 4 last year. For the week \$1500 bales against 1.51 last veck and 1.13 \$150 bales against none last year.

Fatures opened steady with prices 630 points lower, responding to declines at Liverpool and New York. Everything favored the bears, but they preferred not to increase their commitments over Sunday. The weather map was as good as could be desired. Fall River was said to be selling and shipping spot cotton and the movement of new cotton to market was heavy. These features acted as a weight on prices, but the market was too dull to allow of any great fluctuations. The market closed quet, net losses 527 points.

PETERSBURG, VA, Aus. 6.—PEANUTS—
The market is reported as much rmer and very quiet dealers not inclined to sell at present prices, expecting that a continued drain on the supply now held by the cleaners will advance prices. Spanish are quoted at \$1 per bushel, with stock very much reduced. Virginus are 43/44/o.per pound; only light stock held.

A prominent local dealer said to-day that he believed that importation had unquestionably affected the market hitherto, but that at present he thought there was no actual influence from that source.

TRAINMAN REBELS.

Refused to Take Mail Bag From Hand of Negro Clerk.

Hand of Negro Clerk.

The refusal of a white trainman on the railway branch from Belfield to Claremont to take the mail pouch from the nesro mail cierk on his train and carry it to the Claremont postoffice is heing discussed by postal officials here and by railway men to some extent.

The chief of the railway mail service in this section, Mr. F. P. Elam, who has been to Claremont in connection with the matter acclined to make a statement. Postmaster Wray T. Knight said yesterday that it was a matter hetween the railway and its employes purely. The postal officials are not bothering about it. The railways, he stated, are under contract to deliver the mail carried by them to the postmaster when the office is within forty rods of the railway station, as is the case at Claremont. If the agent or employe of the railway fail to do his duty the railway must have it done or lose the contract.
